The opportunity

The UK Government's aspiration is that 25% of public procurement expenditure should be with SMEs; this represents a fantastic opportunity for organisations looking to supply to the defence sector, worth over £20 billion annually in the UK alone. Defence Online, Defence Contracts Online and Defence Contracts International are exclusively placed to help you access funding and opportunities, as well as putting your business into the inbox of the buyers that matter.

Contact Defence Online today to discuss how your organisation can take full advantage of a host of innovative promotion and lead generation packages across both Defence Online and our wider Defence Media channels, including the MOD Defence Contracts Bulletin.
